ESSKA

ESSKA SHOULDER FOCUS MEETING

Massive Rotator Cuff Tears

From repair to replace

10–11 September 2027 | Acıbadem Altunizade Hospital | Istanbul, Türkiye

SCIENTIFIC PROGRAMME

2 days
Scientific programme
Friday and Saturday

16
Sessions
with the grand finale debate

10
Clinical cases
worked through live

8
Relive surgical videos
step-by-step technique

SEP 10 FRI

Day one

08:00 to 16:45 • 10 sessions • 19 talks

08:00 to 09:00 · 60 MIN

Session 1 · Anterosuperior tears: repairable massive tears

FORMAT 10-minute presentations, each followed by 5 minutes of discussion

1. Open versus arthroscopic repair: which is the proper arthroscopic repair?
2. "Relive": How I repair it
3. Augmentation techniques
4. Management of the pseudoparetic shoulder
5. Discussion

09:00 to 10:00 · 60 MIN

Session 2 · Anterosuperior tears: irreparable tears

EXPERT DEBATE Which tendon transfer? 10-minute presentations, each followed by 5 minutes of discussion

1. Which tendon transfer? Evidence-based indications and outcomes
2. "Relive": Pectoralis minor transfer
3. "Relive": Pectoralis major transfer
4. "Relive": Latissimus dorsi transfer

10:00 to 10:30 · 30 MIN

Session 3 · Case-based discussion

FORMAT Two clinical cases, 15 minutes each

10:30 to 11:00 Coffee break and industry visit · 30 min

11:00 to 12:00 · 60 MIN

Session 4 · Posterosuperior tears: repairable massive tears

FORMAT 10-minute presentations, each followed by 5 minutes of discussion

1. Treatment algorithm: evidence-based medicine
2. Biological augmentation techniques: footprint preservation, growth factors and stem cells
3. Biceps augmentation: techniques and outcomes
4. Patch augmentation: technique and outcomes
5. Discussion

12:00 to 12:15 · 15 MIN

Session 5 · Opening and greetings

12:15 to 13:15 · Lunch break and industry visit · 60 min

13:15 to 14:15 · 60 MIN

Session 6 · Posterosuperior tears: irreparable tears

FORMAT 10-minute presentations, each followed by 5 minutes of discussion

1. Functional repair
2. Superior capsular reconstruction: long head of the biceps
3. Superior capsular reconstruction: fascia lata autograft
4. Tendon transfers: latissimus dorsi versus lower trapezius

14:15 to 14:45 · 30 MIN

Session 7 · Case-based discussion

FORMAT Two clinical cases, 15 minutes each

14:45 to 15:15 · Coffee break and industry visit · 30 min

15:15 to 15:45 · 30 MIN

Session 8 · Keynote lecture

FORMAT A 20-minute presentation and 10 minutes of free discussion

1. The Future of Rotator Cuff Reconstruction — **Speaker to be confirmed**

15:45 to 16:15 · 30 MIN

Session 9 · Keynote lecture

FORMAT A 20-minute presentation and 10 minutes of free discussion

1. Massive Rotator Cuff Tears: Repair, Reconstruct, Transfer or Replace? — **Emilio Calvo, to be confirmed**

16:15 to 16:45 · 30 MIN

Session 10 · Keynote lecture

FORMAT A 20-minute presentation and 10 minutes of free discussion

1. Beyond the Scalpel: Metabolic Health as a Surgical Variable — **Speaker to be confirmed**

SEP 11 SAT

Day two

08:30 to 15:30 • 6 sessions • 14 talks

08:30 to 09:45 · 75 MIN

Session 11 · When arthroscopy is no longer enough

FORMAT 10-minute presentations, each followed by 5 minutes of discussion

1. Indications: patient profile (massive tears, retears, pseudoparalysis)
2. Implant design and biomechanics: planning for function
3. From preoperative planning to PSI: bringing the plan into the operating theatre
4. Indications for augmenting with tendon transfers
5. Complications and management
6. Discussion

09:45 to 10:45 · 60 MIN

Session 12 · Case-based discussion

FORMAT Four clinical cases, 15 minutes each

10:45 to 11:15 — Coffee break and industry visit · 30 min

11:15 to 12:30 · 75 MIN

Session 13 · Arthroplasty

FORMAT 10-minute presentations, each followed by 5 minutes of discussion

1. How to improve rotations after reverse shoulder arthroplasty
2. "Relive": Subscapularis-sparing deltopectoral approach: technique, tips and tricks
3. "Relive": Anterosuperior approach: technique, tips and tricks
4. "Relive": Navigation-assisted reverse shoulder arthroplasty
5. "Relive": Robotic-assisted reverse shoulder arthroplasty

12:30 to 13:30 — Lunch break and industry visit · 60 min

13:30 to 14:00 · 30 MIN

Session 14 · Case-based discussion

FORMAT Two clinical cases, 15 minutes each

14:00 to 14:30 · 30 MIN

Session 15 · Rehabilitation

FORMAT Two talks, to be announced, followed by discussion

14:30 to 15:30 · 60 MIN

Session 16 · Grand finale debate

MODERATORS Emmanouil Brilakis and Maristella Saccomanno · What is the best treatment for the 60-year-old active patient with an irreparable posterosuperior rotator cuff tear? Invitations pending confirmation.

1	Superior capsular reconstruction	**Teruhisa Mihata**
2	Lower trapezius transfer	**Bassem Elhassan**
3	Functional (partial) repair	**Emilio Calvo**
4	Reverse shoulder arthroplasty	**Felix Savoie III**
5	Discussion	

FACULTY

CHAIRS

Emmanouil Brilakis
ESSKA SHOULDER SECTION CHAIR · GREECE

Maristella Francesca Saccomanno
SCIENTIFIC CHAIR · ITALY

Alfonso Maria Romano
SCIENTIFIC CHAIR · ITALY

Nezih Ziroglu
LOCAL CHAIR · TÜRKIYE

Kerem Bilsel
LOCAL CHAIR · TÜRKIYE

Barış Kocaoğlu
LOCAL CHAIR · TÜRKIYE
